

NCS TECHNOLOGY FOR BUSINESS

EXPERTS IN CONNECTING THINGS SINCE 1987

NCS TECHNOLOGY

EXPERTS IN CONNECTING 'THINGS' SINCE 1987

Proudly supporting businesses and public sector organisations for over 30 years

Since 1987, NCS Technology has been connecting, supplying, and implementing easy-to-use technology that just works.

Established as Network and Cabling Solutions, NCS are celebrating over 30 years of designing and installing cost effective, efficient and reliable network infrastructures for organisations across Kent and the South East.

Bespoke solutions for your needs

We make a point of getting to know our clients, and recommend products and systems that suit your needs rather than a 'one size fits all' solution.

Free, no obligation design and consultation service

Our experienced engineers and advisers are always happy to discuss your ideas and requirements, either in person or over the phone.

Get in touch - we're always just a call or email away

WIRED NETWORKS AND ELECTRICAL SOLUTIONS

WE CONNECT 'THINGS' THAT CONNECT THINGS

With the constant evolution of IT systems, a solid network infrastructure is crucial. The demands on local area networks have increased exponentially over the past 10 years. As the 'Internet of Things' continues to grow, so does the demand on your network.

Our team of experts take away the complexities of managing and maintaining a network infrastructure. Whether you're a small business or a large outfit spread across multiple locations, we can help with the various hardware components and software applications associated with managing your network.

Speak to us about:

- Network upgrades
- Fibre works
- Structured cabling
- Network switches
- Data network design and re-design
- Re-cabling
- Enhancing your Ethernet network

... that's more than
36 loops of the M25

“ From start to finish, NCS staff have explained everything in terminology that we could understand.

Their staff are friendly, helpful and efficient. Due to the nature of our project there were a number of contractors involved and NCS were happy to work with us in making sure everyone had access to the parts they needed. ”

– Kent County Showground

WIRELESS NETWORKING

WE CONNECT 'THINGS' THAT CONNECT YOU

Nowadays your organisation's wireless network may need to cope with hundreds, even thousands of laptops, iPads, tablets, and other devices, all connecting simultaneously.

FAST AND RELIABLE WI-FI ENSURES USERS ARE ALWAYS CONNECTED

We install professional wireless networks robust enough to deal with the demands of client density and speed.

Speak to us about:

- Wireless upgrades
- Adding access points
- New Wi-Fi installations
- Wireless bridge links between buildings
- Extending your existing Wi-Fi coverage
- Cloud Wi-Fi management
- Zone directors and controllers

Easily monitor and manage your wireless network with our Cloud Wi-Fi Manager

- Remote dashboard
- Lower cost of ownership
- Secure and reliable
- Manage multiple networks at different sites

Contact our friendly technical team to find out more.

“ The work was completed to an exceptional standard. We were so pleased with the results that we have had the same wireless solution installed at our other locations. ”

– Matthew Chapman, IT Engineer, FM Conway

We've installed **10,000+** wireless access points

... connecting enough Wi-Fi users to fill Wembley Stadium more than **7 times**

LED LIGHTING

WE CONNECT 'THINGS' THAT **SAVE YOU MONEY**

SAVE UP TO 65% ON YOUR LIGHTING COSTS

LED and managed lighting systems can significantly cut energy costs, reduce your carbon footprint, and increased light levels improve your working environments. Our electrical and lighting expertise means we can supply and install the very best solutions for your business.

Benefits of LED lighting

- ✓ **Cut your energy bills** by up to 65%
- ✓ **Long life expectancy** of 50,000 hours and a **5-year guarantee**
- ✓ No flicker and minimal glare create **improved working environments**
- ✓ **Intelligent lighting options**, dim or turn off lights when not in use
- ✓ **Lower CO₂** minimises your carbon footprint
- ✓ Instant start means full brightness immediately and **improved safety**

REQUEST A FREE SURVEY AND FIND OUT HOW MUCH YOUR BUSINESS COULD SAVE

One of our lighting experts will visit your site and produce a free report that breaks down how much energy and money you will save by upgrading to LED lighting. We'll also let you know how quickly you'll payback your initial investment based on the savings made.

LED lights

EXPERTS IN DESIGNING ENERGY EFFICIENT SYSTEMS THAT CUT COSTS

At NCS Technology, we care about the environment and are proud to have achieved ISO 14001 certification. We think it's important to provide our customers with efficient equipment and systems that reduce energy and cut costs, making capital available for other resources.

“ We wanted cost-effective and environmentally friendly solutions to our lighting and power needs. The recommendations and advice NCS gave were very good. ”

- Phil Hart,
Managing Director, MEP Ltd

... saving our clients more than **6.728 megawatts** of electricity

IP SECURITY AND ACCESS CONTROL

WE CONNECT 'THINGS' TO PROTECT YOUR BUILDINGS AND EMPLOYEES

We provide and install a range of high quality security solutions that ensure the safety of your staff, customers and visitors, whilst also securing your premises.

ACCESS CONTROL

Door entry and access control provide high security solutions that allow you to conveniently manage who has access to your site and buildings.

NETWORKED CCTV

We provide superior internal and external IP CCTV systems that connect directly into your network. With exceptional image quality, the footage can be viewed on your PC, tablet or phone anywhere in the world.

Whether you want to install an entirely new CCTV system or incorporate IP cameras on to your network to run alongside existing analogue cameras, we can provide a solution that meets your requirements and budget.

VISITOR SIGN-IN AND MANAGEMENT SYSTEMS

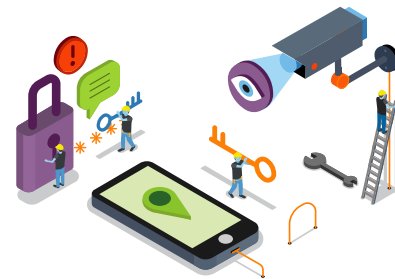

Improve safeguarding in your building or school by having live, up to the minute visibility of who is on site. Visitor management systems can integrate with many popular management information systems making administration simple.

We've connected
5,000+
CCTV cameras

“ NCS Technology understood that Capel Manor is more than just a College. Our gardens, farms and zoo, are all open to the public and require a level of staff and student access. NCS were able to customise a solution that allows us to manage and control access.

From our initial enquiry through to the final installation, I've been extremely pleased with the high level of service that NCS provided. ”

- Jordi Garcia, Head of IT and Network Communications, Capel Manor College

Speak to us about:

- IP CCTV
- Door entry and access control
- Visitor management systems
- Integrating your CCTV, entry and visitor management systems
- Replacing analogue cameras

AUDIO VISUAL

WE CONNECT 'THINGS' THAT HELP YOU
COLLABORATE, ENGAGE AND EDUCATE

We supply and install high quality audio visual (AV) solutions that enhance and improve spaces used for presentations, training, meetings and display in a variety of retail, commercial, public and industrial environments.

As a specialist provider of interactive touchscreens, LED displays, audio equipment and projection systems, we work closely with business providers to install systems that meet your needs.

Speak to us about:

- Digital signage
- Projectors and PA systems
- LED displays
- Video conferencing
- Touchscreens and interactive panels

“ The installation was to the high standard we have come to expect from NCS. Thank you for your prompt attention, for being able to meet our time-scales and for a trouble-free, smooth installation. Good work all round.

– The Gillingham ICT Partnership

”

EXCELLENT SUPPORT AND GREAT CUSTOMER SERVICE

Our dedicated support team consists of highly skilled technical consultants who are passionate about delivering the best customer service at every stage of your project.

After installation, we continue to provide excellent support; which is just one of the many reasons our clients tend to stay with us for years.

“ *NCS Technology is local and has a good reputation. I would recommend NCS to everyone.* ”

- Adam Beadle, ICT Technical Support Analyst, MHS Homes
